Chris Neubecker	Teton County Planning & Building
Erik Kimball	Teton County Sustainability
Josiah Nash	Teton County Facilities
Zach Nelson	Grand Teton National Park, Law Enforcement
Tanya Anderson	Town of Jackson – Ecosystem Stewardship
Charlotte Reynolds	Teton County School District

### 3. Discussion Summary

#### **Healthcare Coalition Funding and Preparedness Initiatives**

McKinley Robinson provided updates on the Western Wyoming Regional Healthcare Coalition, which has received new funding to expand healthcare preparedness training, exercises, and multi-county coordination. Additional funding was awarded for pathogen-specific medical response simulations. Agencies should expect outreach for participation.

#### **Nixle Deprecation and Everbridge Enhancements**

Emergency Management reviewed plans to fully deprecate Nixle in early 2026. Approximately 15,000 legacy subscribers will be removed, with targeted messaging encouraging migration to Everbridge. This will improve data quality, geotargeting, and enable use of temporary event-based text keywords. Public alerting vulnerabilities were noted due to a nationwide IPAWS certificate issue.

#### **Evacuation Planning and Recent Training**

A recent IAFC-led regional evacuation planning course and a follow-up tabletop exercise highlighted the need for updated county-wide evacuation zones, improved transportation coordination, and development of a comprehensive evacuation plan. Emergency Management will pursue grant opportunities for this work.

#### **Public Works Updates**

Gregory Lane has reopened and additional Stilson parking was paved. IT network infrastructure upgrades continue, with temporary service disruptions expected during switchover. Vine Street is currently out to bid. Winter operations preparation is underway.

#### **School District Updates**

Teton County School District reported calendar development through 2028, ongoing construction projects, and a renewed emphasis on staff training and emergency drills. New administrators may join future county exercises as observers.

#### **Planning & Building Updates**

Planning reported movement on the Northern South Park pre-application and zoning considerations for heavy/light industry. A new county building official will begin work shortly.

#### **Sustainability Updates**

Eric Kimball provided updates on large-scale solar projects, microgrid opportunities, and rapid-turnaround grant applications for major infrastructure projects.

### **Facilities Updates**

Temporary modular offices have been installed near the Administration Building due to the Justice Center project. Parking and access changes were noted.

### **TCSO Dispatch**

Dispatch reported no major operational issues.

### **Jackson Hole Airport**

Airport provided updates on the April 2026 full-scale drill.

## **4. Action Items**

- Emergency Management will issue public messaging regarding Nixle deprecation and Everbridge registration requirements.
- Teton County Emergency Management will continue development of evacuation zone concepts and pursue funding for a comprehensive evacuation plan.
- Healthcare Coalition coordinators will schedule initial regional meetings and outreach to ESF-8 and ESF-6 partners.
- Public Works and Sustainability will continue coordination on irrigation efficiency, water use, and facility energy initiatives.
- Planning & Building will continue processing Northern South Park applications and update partners on zoning considerations.
- School District will continue staff training planning and coordinate with Emergency Management for opportunities to observe exercises.

## **5. Adjournment**

The meeting adjourned at approximately 10:02 a.m. The next scheduled LEPC meeting is Thursday, January 15, 2026 at 8:30 a.m.
